

Dear Andrew + Jackie -

More than a year has passed since our wedding at the Lord Thompson Manor. We still receive compliments of how beautiful the entire day was. We could not have asked for a more personal touch - from the rehearsal dinner to the ceremony to the after-party to the breakfast on Sunday morning.

Most of all we would like to thank you for the extra special care that was given to Harry's father. Three weeks before our wedding day, Mr. Desormier was diagnosed with cancer. We never imagined what his health would be like the day of our wedding. He was able to make it through the ceremony + part of the cocktail hour. If it had not been for your lovely facilities, my father-in-law + mother-in-law would have had to leave. But because he was able to rest in one of your beautiful bedrooms - relatives were able to see him through out the day. Unfortunately we lost him on January 22, 2006. We will forever cherish the opportunity for him to be present on our special day. No words could ever thank you + your staff for that special gift.

Love - Harry + Monique
